

Legal support for Tech Industry Forum members to help your business grow

Tech companies are facing some major challenges, not least navigating complex regulatory shifts like AI compliance, GDPR and cybersecurity obligations.

As a member of the Tech Industry Forum, HCR Law is here to help. As a multi award-winning 'Top 50' UK law firm, HCR Law provides the full range of services that you would expect to organisations, business leaders and individuals. With 13 offices stretching from Cardiff to Norwich, we provide full service legal support across England and Wales.

Your exclusive offer

We're offering a **complimentary 30 minute consultation** with our technology partner, Frank Jennings, as part of our support for the tech sector.

Exclusive to Tech Industry Forum members, the session is entirely without obligation. You can bring your most pressing legal issues, and we'll provide clear, commercially focused advice to help you identify, understand and manage risk.

Following the session, members will also benefit from a 10% discount on our fees for the first six months, should you choose to work with us.

We can support with:

- ✓ GDPR and UK data protection: remain compliant and avoid ICO fines
- ✓ AI regulation, ethics, and risk allocation
- ✓ Customer & supplier contracts, including liability, SLAs and indemnities
- ✓ SaaS, cloud, and platform risk management
- ✓ Intellectual property ownership, licensing and protection
- ✓ Cybersecurity obligations and emerging regulatory developments
- ✓ Employment contracts and workplace policies
- ✓ Mergers, acquisitions and exit planning
- Real estate and property considerations

How it works

We can meet virtually or in person at our London office, no preparation needed, just bring your biggest challenges. You can focus on a single issue or take a broader legal health check, and you'll leave with clear next steps and practical, actionable guidance.
